Profile Summary

Aspiring AI & Machine Learning Engineer with strong foundations in Python, Java, Data Structures & Algorithms, Machine Learning, and Software Development. Experienced in developing web applications and machine learning projects using Flask, Streamlit, Pandas, and Scikit-Learn. Passionate about building real-world AI solutions and continuously enhancing problem-solving and analytical skills.

Education

- **Bachelor of Technology (Artificial Intelligence & Machine Learning)** 2025 – 2028
Chandigarh Engineering College, Jhanjeri
- **Diploma in Electronics Engineering** 2022 – 2025
Government Polytechnic, West Champaran
CGPA: 8.44

Projects

Amazon Recommendation System <https://amazon-recommendation-system-a.streamlit.app/>

- Developed a machine learning-based recommendation system using Amazon product data.
- Implemented TF-IDF Vectorization and Cosine Similarity for product similarity analysis.
- Built an interactive Streamlit web application for product search and recommendations.
- Designed a similarity-based ranking system to display relevant products.
- **Tech Stack:** Python, Pandas, Scikit-Learn, Streamlit, TF-IDF, Cosine Similarity

Artify: Multi-Vendor Web Marketplace

- Developed a full-stack marketplace connecting artisans with buyers.
- Implemented **user authentication**, role-based access control, and product listing features.
- Designed backend workflows for product management and secure data handling.
- Focused on **scalability, clean architecture, and maintainable backend code**.
- **Tech Stack:** Python, Flask, MySQL, HTML, CSS

Experience

Machine Learning Intern – Future Interns

- Worked with structured datasets using Python for analytical and problem-solving tasks.
- Performed data cleaning, preprocessing, and exploratory data analysis.
- Gained practical exposure to machine learning workflows and data-driven solutions.
- Strengthened analytical thinking and engineering problem-solving skills.

Skills

Technical Skills: Python, Java, C++, HTML, CSS, Flask, Streamlit, MySQL, Git, GitHub

Machine Learning & Data Analysis: Pandas, NumPy, Scikit-Learn, TF-IDF, Cosine Similarity, Data Preprocessing, Data Analysis

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Time Management

Certifications

- **PCAP: Programming Essentials in Python** – Cisco (OpenEDG)
- **IT Essentials & Cybersecurity** – Cisco Networking Academy
